

WHAT THEY MAY DO AT EXTRA SESSION

GEN. GROSVENOR TALKS OF PROBABLE ACTION.

The Ohio Statesman Is Believed to Voice the Sentiments of Major McKinley—Would Rush a Tariff Bill After March 4—The Talk About the Dingley Measure.

Cincinnati, Ohio, Nov. 24.—The Commercial-Tribune prints a long article signed by Gen. Grosvenor, congressman from the 11th Ohio district, in which he outlines his views as to the policy of the republican party. He says in the outset that he expresses his own views and does not undertake to commit or represent any other member of the party than himself. From Gen. Grosvenor's close relations to President-elect McKinley, however, it is generally believed that his views on this matter very nearly coincide. Gen. Grosvenor says: "The question of the hour, it seems to me, so far as it relates to economic legislation, is: 'Ought the LVth congress, in its closing session, pass the Dingley bill, or should that measure be allowed to perish and the republican party move forward to the discharge of the high duty imposed upon it by the recent election?'"

On these questions Gen. Grosvenor takes the position that, although it might be well if the Dingley bill could be passed for temporary relief and be followed immediately after the 4th of March in an extra session of congress, by the passage of a proper permanent measure; yet the passage of that tentative bill will hinder and obstruct the passage of a proper measure, and therefore should not be attempted. Another reason for the defeat of the Dingley bill is that it does not meet the requirements of the St. Louis platform as a protective measure.

He says every republican member of the ways and means committee has been re-elected and these members, "during the time which is to lapse between the first Monday in December and the 4th day of March, can formulate a tariff bill predicated upon the principles of the McKinley law, with schedules adapted to existing conditions, perfected and ready for passage within ten days after the meeting of an extra session of congress, and then, if there is patriotism and republicanism enough in the senate, it can be passed into a law and be ready for enforcement by the first of May."

On the other hand, let the Dingley law be passed, founded, as it is, upon errors that are organic and incurable. Then let it run till December, 1897, and let congress organize, appoint committees, encounter the delay of the holidays, attack a mass of incidental legislation, and set about framing a permanent tariff. In that case it should do well if it got an untimed measure through by September, 1898, in the midst of a campaign for congress. Meanwhile the country would be flooded with foreign importations, to the injury of home industries, the reduction of revenue, and a long train of consequent evils.

POPE TO IRELAND.

Prelate Asked to Have more Reserve in Discussing Political Questions.

Washington, Nov. 24.—The statement that Archbishop Ireland was soon to receive a letter of instruction from the vatican is corroborated from Rome by private intelligence of undoubted authenticity, received at the papal legation. The letter of the holy father is reported as being very mild and to contain only the kindest suggestions as to the prelate's future conduct in matters political. The archbishop is warmly praised for his zeal in promoting the welfare of the church and for the spirit of progress and prosperity manifest in the diocese over which he rules.

He is exhorted, however, to maintain a certain reserve in regard to national questions under political discussion. This letter is a private communication from the pope and will go directly to Archbishop Ireland without the formality of passing through the hands of the delegate. It left Rome on Monday last.

TO FREEZE LITTLE ONES.

Fight Inaugurated on the Small Manufacturers of Wire Nails.

Cleveland, Ohio, Nov. 24.—A surprising story is told here by a rod-mill man regarding the operations of the wire nail manufacturers. It is said that the present cutting of price in wire nails is not a fight on the pool, but is being done by the pool for the purpose of freezing out the small manufacturers. Taking \$1.70 as the base price per keg for nails, the men in the trust have been for some time sending any surplus price they could get for their product to the officers in Boston for a sinking fund, from which the manufacturers will now receive a rebate sufficient to make \$1.70 with what they are getting during the present cutting of prices. The entire thing is being done to kill small manufacturers. The institutions that make wire nails here deny the story.

Race War in Cleveland.

Cleveland, Ohio, Nov. 24.—Almost the entire population living on Franklin avenue hill, composed largely of Slavs and Hungarians, turned out last Sunday night in an effort to cut, stab and slash one another. It was the bloodiest battle of the year around the river front and Columbus street districts. Twenty persons were more or less seriously injured. REIGN OF TERROR IS NOW AT AN END

LAW AND ORDER RESTORED AT LEBANON, IND.

The Operations of the Miller Gang of Outlaws Ended By the Authorities—Ringleader Is Fatally Wounded—Some Talk of Lynching—Prisoners in Jail.

Lebanon, Ind., Nov. 24.—The worst fight ever known in the history of Boone county took place on the southeast corner of the public square at 8 o'clock Monday night between the notorious Miller gang and a posse of officers. "Bill" Woods, one of the desperadoes, was fatally injured. Police-man George Frost received a bullet in his thigh and several others suffered slight injuries.

For the last year the citizens of Lebanon have lived in mortal fear of the ruffians. The trouble which ended with this last fight began about a month ago, when Woods arrived from Missouri, where he had been living for about a year. He was arrested a day or two after his arrival and spent a week in jail. He was released election day and swore vengeance against the officers.

Several times during the last two weeks the Miller gang have engaged in melees, in which guns and knives have played a prominent part, and each time the Millers have conquered. About 10 o'clock Monday Jess Miller, Bill Woods, Harry Byrds, John Paragan and Bill Kelly left town, going to the residence of Charles Johnson, three miles east of this city, where they immediately proceeded to take possession. The owner protested and the trouble began. "Jack" Dowden and Jeffrey Gullio were badly injured, while no less than seventeen others were bruised in the affray. Officers were put after the gang early Sunday morning, but no trace of them could be found.

Mayor Garrett called the police force together and gave orders to Chief Witt to bring in the Millers dead or alive. About 7 o'clock in the evening Officers Frost, Irick and Orme ran across Miller and Wood and Paragan in Francis Long's saloon in South Lebanon street. Miller and Paragan surrendered when ordered, but Wood ran out the back door and escaped. The two prisoners were taken to the police court-room, their weapons were taken from them, and they were left in charge of Officer Frost, while Irick and Orme left to hunt for Wood.

There was no one in the room but Frost and his prisoners, when Wood appeared at the window and beckoned Miller and Paragan to come out. They started out, and Frost drew his revolver and ordered them back. Wood rushed in with drawn weapon and began shooting. The first shot struck Frost. The officer and outlaw clinched. Placing his revolver at Wood's abdomen, Frost began shooting. Both men emptied their revolvers during the bout.

Paragan escaped, and Miller and Wood attempted to do so. Wood was too badly hurt and Miller was captured by citizens. The prisoners were taken to the county jail.

The news spread quickly, and a crowd surrounded the jail, but there was little talk of violence. Drs. Porter and Fitch examined Wood's wounds and pronounced them fatal. Paragan was arrested later and lodged in jail without any trouble. Officers are searching for the other members of the gang. Officer Frost is resting easily and is expected to recover.

Jones Wants a Tax on Beer.

Washington, Nov. 24.—Senator James K. Jones of Arkansas, chairman of the democratic national committee, expressed the opinion that it was not at all likely that the Dingley revenue bill passed by the house at the last session would be favorably acted on in the senate. He favors a tax on beer in place of any general tariff revision, and says by making this additional tax \$1 per barrel about \$30,000,000 per year revenue would be derived.

SETTLERS IN DANGER.

Skyomish River Has Overflowed Its Banks in Many Places.

Seattle, Wash., Nov. 24.—News has reached this city from Skyomish, on the Great Northern railway, which indicates that the Skyomish river is raising. The river has overflowed its banks in many places and invaded the homes of ranchers. One instance is given where a woman waded half a mile with a baby in her arms through three feet of water to escape the rising flood. Houses have been swept away and big trees, fences and other movable objects are being carried off. A man named Baker came sailing down the Skyomish yesterday on a tree, while near him crouched a big black bear. Near the town of Skyomish, Mrs. Sanders saw a bear on a floating tree and shot it dead and secured the carcass.

The trip was made on an early train to avoid any possible show of a demonstration against Foley at Liberty, whose citizens have become thoroughly wrought up over the cold-blooded murder. But few knew of the transfer at the time and no trouble was experienced by the officers. Foley had little to say about being brought here and quietly submitted to the officers.

Terre Haute, Ind., Nov. 24.—Monday notices of eviction were posted by the Parke County Coal company and the Coal Bluff company, who operate mines in this and Parke counties and employ 1,000 men. This is a result of the action of the miners' convention last week, deciding to continue the strike for 60 cents. These operators will endeavor to run their mines independent of the miners' organization and to bring in men who will be willing to work for 55 cents. President Knight of the miners says that he has reason to believe that in a few days several of the operators who have been holding out for the 55-cent rate since last May will pay 60 cents, and that when one does this the others will follow.

Washington, Nov. 25.—A special cabinet meeting is being held today. Spanish-Cuban affairs are said to be the subject under discussion.

It is said that a declaration of war on the United States by Spain is in prospect and that it is this fact that caused the calling of the meeting. Nothing definite, however, can be learned.

GOMEZ ANXIOUS FOR A FIGHT

The Cuban Commander-in-Chief Wants to Meet Weyler

New York, Nov. 24.—The protracted silence of Commander-in-Chief Maximo Gomez of the Cuban army, which has caused considerable anxiety among Cubans here as to his safety, has at last been broken, and the junta in this city has received a communication from him. In this communication, which comes from Las Villas, Santa Clara province, Gen. Gomez says that he has at his command 35,000 well-equipped men, and that with these he intends to proceed to Havana province. He is in good health, as are his men, and has every hope of victory.

Havana, Nov. 24.—Exploring trains left Artemisa for Candelaria and San Cristobal, in order to prepare for the arrival at Artemisa of Capt.-Gen. Weyler. At 9 o'clock Gen. Weyler entered the town with the columns commanded by Gen. Aguilar and Gen. Arolas. It was seen that the captain-general was considerably sun-burned. He wore a field uniform, with a Panama hat, and rode a black horse. He put up at the house of a prominent citizen, whose large garden enabled the Spanish commander to receive there the staff officers and others and transmit orders in various directions. There he also transacted considerable business with his chief of staff.

Capt.-Gen. Weyler arrived at Havana in the evening on board the cruiser Legazpi, from Mariel.

Weyler gives no excuse, it is said, except that it is too hot and unhealthy to do any fighting. It is openly asserted in Havana that Weyler became frightened because Maceo had set a price upon his head or his capture.

It is also stated in the cablegram that Weyler's recall is assured now, as the Spanish government is incensed against him for his dilatory tactics. Cubans here are jubilant, for they think this will have a favorable effect upon congress.

EXPECTS ACTION AS TO CUBA.

Senator Lindsay Says Congress Must Do Something This Session.

Frankfort, Ky., Nov. 24.—United States Senator William Lindsay, a strong administration man, expects decisive action on the part of congress regarding Cuba at the approaching session. He says: "The revolution now in progress in Cuba must result in the independence of the island or in the practical extermination of the Cuban people. Humanity demands that the useless destruction of property and the cruel waste of human life should come to an end. If negotiations with Spain will not avail, then there should be intervention. In this movement the United States must take the lead."

ELECTION ORDERED BY THE COUNCIL

TO VOTE ON WATER PROPOSITION ON DEC. 8.

Aldermen Took Such Action At Last Night's Special Session—City Attorney McElroy Tells of Litigation—Street Commissioner to See to All the Defective Sidewalks.

At the special meeting of the common council held last night, the aldermen:

Voted to hold a special election on December 8, to decide the question of whether or not the people wish to buy the water works, and issue bonds to pay for the same.

Heard a statement from City Attorney McElroy, in which he told of the status of the suits against the city, and advised prompt measures in regard to keeping the sidewalks of the city in good condition.

Instructed the street commissioner to keep watch of the walks in the city, and cause proper repairs to be made where needed.

Aldermen McKee and McLean were absent. Mayor Baines stated that the meeting was called to take action on the water works matter, and then read the following statement to the council:

Recommend an Election.

TO THE COMMON COUNCIL OF THE CITY OF JANESVILLE—The council having received and filed the report of the special committee having in charge the matter of purchasing the Janesville water works, and the opinions of the city attorney and of the special counsel having been filed and published, I regard it as my duty to submit to the council the following statement and recommendation:

"It is unfortunate that a difference exists between the city attorney and special counsel as to the city's legal right to purchase these works. Their difference now extends to the people of the city, many accepting one view, many accepting the other. The common council is powerless to decide the question upon which counsel cannot agree, and so long as the matter remains in this condition, just so long will a large number of the property owners of the city feel that the city government is falling short of discharging its duty to them. So, I cannot but feel that the question whether the city should purchase the water works or not, should be voted upon, and I would recommend that a special election be held for that purpose.

"I believe, and I think the common council will agree with me, that we have arrived at what is the actual cost of the water works. The figures submitted by the water company differ but little, if any, from those reported by Mr. Reger and Mr. Card, and the matter of cost can hardly be said now to be open to question. On September 20th, 1896, Mr. Reger submitted to the board of water commissioners an estimate that it would cost \$6,816.02 per mile to lay 152-100 miles of pipe. His report now shows a cost to lay the pipe of \$6,811.62, a difference of \$4.41 per mile between the estimate made by him in 1896 and the actual cost determined by him in 1896; and this demonstrates to my mind the closeness and accuracy of his work. If we are to purchase at all, we must purchase upon the basis of cost as presented to us by the water company, and from which the city's experts differ, as I have said, but little if any.

City Should Not Build.

"I cannot agree with one of the special counsel of the city that it would be advisable for the city to build water works. I do not believe that works could be built for the figures given by him. But assuming that we could build as suggested by him, we would still have to pay a heavy rental, and that is equivalent in itself to paying interest upon \$120,000. This rental, it must be borne in mind, would have to be paid in addition to the \$125,000 for which, as he claims, water works could be constructed, and interest upon that sum. But to my mind it would not be possible to construct suitable works for such a sum; and it is a mooted question, too, as to whether or not the city has the right to build water works. Having entered into contracts with the water company under which they have invested their money, there should be moral, if not legal, objections, to any such act upon the part of the city by which the value of such investment would be lessened or destroyed.

"I recognize that much of the hard feeling between the water company and citizens has passed away under the present management of the company's affairs. While a few years ago complaints were incessant, and frequently well founded, now they are rarely if ever heard. I also recognize the right of the city to own their water works, if they can legally be purchased, and believe a large number of property owners favor such ownership by the city. I can see no other way for the common council to dispose of the matter except by submitting the question to a vote. If the works are not secured by the city now I do not believe they will ever be purchased, as the obstacles in the way of city ownership will increase with each year.

"In conclusion, I again recommend that the question of the purchase of these water works by the city, be submitted to the electors; and that such submission be had at a special election to be held at as early a date as the statutes permit. The Election is Ordered.

After a consultation with the city attorney, Ald. Hedges introduced an order for the election. It provided that the proposition to purchase the Janesville water works from the Janesville Water Works company at a cost not to exceed the sum of \$56,000 and that the city of Janesville shall issue its corporate and negotiable bonds for the aforesaid amount of \$56,000 for the purpose of buying said water works and paying for the same be submitted to the electors of said city of Janesville to be held thereon at a special election to be held on the 8th day of December, 1896, in said city. Then follows a list of the polling places, which are the same as at the recent election, the polls to be open from 6 a. m. to 7 p. m., and the vote is to be taken and canvassed by the inspectors and clerks of the same as the last election. The ballots will be printed in the following form:

Notice of the election was ordered printed in all the daily papers in the city.

The Sidewalk Problem.

City Attorney McElroy then explained the standing of the suits against the city, saying that two damage actions were pending against the city in the circuit court of Dane county, where they had been removed on the ground of prejudice, and he hoped to dispose of them in January. Two more cases in the Rock county circuit court were continued yesterday for the term, owing to the failure to procure a material witness. The case of Janette Rice against the city of Janesville was discontinued yesterday. In all there were seven cases in this court, and all the result of defective sidewalks.

They were largely made up cases, and some of them had no chance of winning, but they brought considerable worry and expense, and in case the city were beaten in some of them the expense would be still greater. There were many bad places in the walks about the city and they should be attended to before the winter sets in. He would call the attention of the council to the urgent necessity that each member constitute himself a committee of one to look over the walks in his respective ward and report any bad ones. The city had paid out enough in the past two years on damage suits to put down new sidewalks all over the municipality.

Aldermen Discuss It.

Ald. Burnham said the great trouble was that the aldermen did not go all over the ward. In going to and from his business he walked over the same streets. He could look after the walks on those streets, but there might be others in a different portion of the ward that were much worse that would never be seen by the aldermen.

Ald. Stoddard said he had gone all over the ward and notified parties, but they had paid no attention to it. The trouble was that it required too much time to get the matter in shape. The street commissioner had to be notified and he notified the council, and the council instructed the street commissioner to notify the property owner, and the property owners paid no attention to the notice, and the walk was not built. He favored some plan whereby repairs could be compelled without delay.

Alderman Milmore stated that the street commissioner had time at this season of the year to look after the walks, and he moved that the street commissioner look after all the sidewalks in the city from now until spring. The motion was adopted, and adjournment followed.

Mrs. A. B. Wright Writes From Chicago Regarding His Illness

Chicago, Ill., Nov. 23.—Editor Gazette—In your report of Robert G. Ingersoll's lecture you say he said he was not afraid of being struck by lightning. I see by the Chicago Tribune that he was struck by something—I believe by the hand of God—and I will refer you to the LXXXVIII Psalms 65 and 66 verses:

65—Then the Lord awakened as one out of sleep and like a mighty man that shouteth by reason of wine.

66—And he smote his enemies in the hinder parts. He put them to perpetual reproach.

TIRED SALESWOMEN.

EMPLOYERS SHOULD BE MORE CONSIDERATE.

Interesting Statement by a Young Lady in Brooklyn.

In the vast retail establishments of large cities, many women are employed as saleswomen.

Men formerly held the positions that

women now hold, and while women's organization is less strong than men's they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, in a short time, contract these distressing complaints called "female diseases."

They occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhoea, general debility and nervous prostration.

They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following is a sample:

"My dear Mrs. Pinkham:—After writing you, and before your answer came, I was too miserable to go to the store, and so lost my position. That was five weeks ago. I am now back again in my old place, and never felt so well in all my life. The bearing-down pains and whites have left me, and I am not a bit nervous or blue. Life looks brighter to me. I don't get tired, my temper is real sweet, and I could scream right out sometimes for joy. Your Vegetable Compound is my standby. You don't know how thankful I am to you for saving me from suffering. Every woman in my position should know of your wonderful remedy. I never saw you, but I love you for being so good to me."

GEN. DOE SAYS CITY CANNOT BUY

The Purchase of the Water Plant Would Be Illegal.

General Doe has written a letter in which he says that he does not think the city can buy the water plant in the course of it he says: "I have no time to examine authorities, but I am very strongly inclined to believe that for the city of Janesville to purchase the property of the Janesville water company, such property being burdened with a bonded indebtedness of \$174,000, which in addition to the present indebtedness of the city and the amount of cash contemplated to be paid, would exceed the constitutional five per cent limit; would be an illegal act upon the part of the city, that it would be 'contravening' by direction and evasion the provision of the constitution referred to, and I think the city attorney is correct in his opinion."

He comments on the opinions of Messrs. Jeffries and Winans at some length in sustaining his opinion, and says that it seems to him to be a "peculiar reasoning" when they argue that "the amount of bonds referred to, would in no sense become a debt of the city of Janesville." He asks "who would pay the bonds?" "Who would pay the interest?" and "can the city, by taxation, legally pay the interest on a debt that the city does not owe?" and holds that the arguments are the same, if the interests, etc., should be paid from the income.

Couldn't Believe It.

The old man looked at the neighbor who was always interfering in matters that did not concern him and shook his head."I can hardly believe it," he said.
"I have every reason to believe—"
"But that won't do," interrupted the old man. "You forget that this is a serious matter that ought not to be allowed to rest upon hearsay evidence. When one man comes to another and tells him that his daughter is about to forsake the parental roof under cover of the night he should be absolutely sure of what he says. Have you incontrovertible evidence that what you say is true?"

"Well, no, I can't say that I have," replied the officious neighbor, beginning to feel that perhaps he had gone too far.

"Just as I feared," returned the old man. "This is the third time I've had my hopes needlessly raised by reports of this sort, and it is growing monotonous."—Chicago Post.

NAILS TO COST LESS THE DEALERS SAY

COLLAPSE OF THE TRUST MEANS SOMETHING.

Attempt to Be Made to Freeze Out the Smaller Firms, It Is Said, But the Barb Wire Company's Machines Still Hum—Wire Makers in a Pool.

Nails will soon be cheaper, local hardware men say, because of the dissolution of the "nail trust."

The news of the collapse of the trust was not surprising to some of the dealers in this city. Ten days ago it was predicted that the trust would cut the price from \$2.60 to \$1.75 a keg to meet the competition of outside manufacturers, who could not be bought up by the pool. Among these concerns was the Janesville Barb Wire Company. This company refused to sell out to the trust, but had been selling all the nails that could be made by running night and day, at the trust price.

Local hardware men expected the failure of the trust. Some of them said some days ago that the combination could not live. The buying up of competitors had become too expensive and the trust would be forced to quit. It is now predicted that the nail manufacturers who have been released from the trust will combine to make war upon the steel pool, which has been charging discriminating prices for billets to wire manufacturers who are outside the pool.

After Small Manufacturers.

It is also said that the small nail manufacturers of the country will soon begin to feel the heel of the wire nail combination on their necks. Beginning today a pool will discontinue paying subsidies to the wire manufacturers to keep them out of the nail market and consequently the market will soon be overstocked. When the wire nail pool was organized, \$1.70 a keg was made the basis, and for each keg sold the manufacturer who entered into this gentleman's agreement was to receive that sum, the money coming through the combination and the sales being made by the officers of the pool who have their headquarters in Boston. The output of each mill was fixed by these officers in order that the supply of nails should not be exceeded the demand and thus bear the market. The sales being made through the office of the pool, each manufacturer was credited with \$1.70 for every keg sold and the difference between the pool price and the market price was turned into the treasury and invested in good interest-bearing securities. This surplus fund has reached a good size and is owned by the pool as a whole. What will be done with it only those on the inside know, but it is believed that it will be used in bolstering up the pool manufacturers, while the small fry are being strangled out of existence by the pool.

The Pool Men Get Rebates.

It is also said that the present cutting of price is not a fight on the pool, but is being done by the pool for the purpose of freezing out the small manufacturers. Taking \$1.70 as the base price per keg for nails, the men in the trust have been for some time sending any surplus price they could get for their product to the officers in Boston for a sinking fund, from which the manufacturers will now receive a rebate sufficient to make \$1.50 with what they are getting during the present cutting of prices. The entire thing is being done to kill small manufacturers.

In the mean time the Janesville Barb Wire company's machinery continues to hum, and the work in the big warehouse continues.

CALLS WATER CASE A FARCE.

Edwin F. Carpenter Writes From a Taxpayer's Standpoint.

Editor Gazette—I see by last night's action of the "city fathers" that the farce of purchasing the water works plant still goes on. Is it not about time that this was stopped?

The city has already incurred thousands of dollars of indebtedness in hiring an expert accountant and civil engineer to smell out what this plant cost; it has incurred other indebtedness in hiring counsel to assist our city attorney in determining whether or not the city could buy the same and still keep the city's indebtedness within the constitutional limitation; and before any further expense is incurred I would suggest to the city fathers that they reverse their plan of operation, and send a boot black around to the Water Co. and find out, first, what said company has to sell; and secondly, what the city would have to buy.

This young fellow would report, undoubtedly, that the present water company had issued \$174,000 of bonds which it had signed and agreed to pay and before it would sell the franchise and plant to the city of Janesville, the city would have to assume and agree to pay these bonds, and to relieve the Water Co. from so doing. Then submit the "boot black" report to your learned attorneys (and they are learned) and they would then agree, undoubtedly, on an opinion to the "fathers" that the jig was up and the farce ended.

This is the interest of a long suffering taxpayer. Respectfully, EDWIN F. CARPENTER.

\$500 WILL COVER COST OF ELECTION

SO SAYS CITY ATTORNEY M'ELROY.

The Expense of Getting a Supreme Court Ruling on the Water Case. After the Election, Will Be About \$250—Action Begins After Contract Is Made.

Now that the city council has ordered a special election to decide the matter of whether or not the people want to buy the water plant, the question has been asked—"How much will it cost?"

Five hundred dollars, it is said, will pay all the expenses of the election.

Then the matter will be taken into court, and the legal points determined. "How much will that cost?" is the next question.

Two hundred and fifty dollars. These are the estimates of City Attorney McElroy.

Alderman Stoddard asked the city attorney, last night, if he had found anything that led him to change his opinion of the case, and City Attorney McElroy replied that he had not.

"How much will the election cost?" Alderman Stoddard asked.

"\$500" City Attorney McElroy replied, and in response to another question, he gave his estimate of the cost of the litigation.

After the election is held, the aldermen will have to contract with the water company for the purchase of the works. Then someone who objects can bring suit to prevent the carrying out of the agreement—and the courts will do the rest.

THE NEW WOMAN.

Was the Human Body Created to Show Off Clothes?

An inhabitant of Mars who should suddenly appear upon our earth would conclude that the object of creating the human body, especially a woman's body, was that it might show off clothes. I overheard two girls talking lately concerning bicycle riding. One of them had taken her first lesson. "What you got to wear?" asked the other. "Oh, I got my bicycle suit first thing in the morning. I made up my mind to learn to ride. It's"—And then followed a description of skirts and waists and hats and belts and bicycle shoes and cuffs and gloves so elaborate that an experienced wheelman would question the sanity of a young woman who proposed to carry all that dry goods about her on a bicycle. A fashion article I noticed the other day gives a most astounding conglomeration of stuff for the really swell wheelwoman's garb. Her jacket and her blouse were to be a bewildering array of lace and silk and wool and velvet and embroidery that would look overloaded anywhere, even upon a milliner's dummy. Her hat must be of light straw "ornamented with loops of ribbon and closely fitting flowers." The skirt, whatever the material, must "always be lined with flannel." The knickerbockers must be of the same material as the skirt, and—oh, ye powers!—"lined with wash leather." Underneath the compilation of lace and silk and embroidery and velvet which form the jacket and the shirt waist the fashionably attired wheelwoman was to put a "long sleeved, high necked, thin jersey and a slip bodice over the woolen corset." Think of the young woman going out for a 50 mile spin with, above her ordinary underclothing, a woolen corset, a jersey, a slip bodice, a shirt waist and jacket, with knickerbockers lined with wash leather, her already heavy skirt lined with flannel and a straw hat! I tell you there are occasions when even women give me that tired feeling. On the whole, it is not strange that men sometimes consider women too idiotic to vote intelligently. The original and only true object of dress was as covering for the body. The only healthful and suitable clothing is that which impedes the action of the body as little as possible. This can be made thoroughly tasteful and artistic too. Instead of piling clothes upon our bodies as our great-grandmothers piled bed coverings upon their families when they slept we should wear just as little as is necessary for comfort. Let us not clog the millions of pores of our skin with dust and lint from textile fabrics any more than is necessary. The lighter the clothing, so that it is comfortable, the healthier and handsomer the human body will be.

Miss Edith A. Reiffert, a plucky and persevering girl who has made her own way in the world altogether as well as helping others, has just been admitted to the bar to swell the list of women lawyers in New York city.

Apropos of these political times, do you know the difference between a plurality and a majority?

The German university of Bonn, on the Rhine, is now open to women in all its departments. One by one the stiffest of the old strongholds fall.

Grace Barton Allen, daughter of that sweet and gifted poet, Elizabeth Akers Allen, is proving that she, too, has genius. She not only writes strong and dainty verse, but she is an admirable painter in water colors and is making her art successful commercially. One of her most beautiful recent pictures is a "Study in Pansies," published as a supplement to an art periodical. The young lady has caught the very expression of these picturesque and splendid blossoms.

A Tammany man and a Democrat the other day advanced one of the very best arguments for woman suffrage I ever heard. It was that the greater the number of voters the harder it would be to buy them all up. Therefore he favored

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, salivaceous, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by druggists.

SICK-POISON.

WHAT IT IS, AND WHERE IT COMES FROM.

Sick-poison is what makes you sick, irritates your nerves, disorders your functions, saps your strength, makes you miserable.

Different diseases have different poisons, some have several, indigestion more than any.

That is, the symptoms of indigestion are caused by the poisons which are created by undigested food.

When you are sick, try to get rid of your poison.

It is often easier than you think, for all nature is helping you. Only the poison is obstinate, but the first step is to go to the root of it.

The poisons of undigested food, which cause lethargy, headache, dizziness, weakness, bad taste, stomach ache, fever, flatulence, nausea, constipation, loss of appetite, jaundice, anemia, neuralgia, rheumatism, etc., these poisons can be swept away and annihilated by the Shaker Digestive Cordial.

Curing the stomach and helping it to digest food, when it is too weak to do so by itself, will purify your system of poison and renew your strength and health.

Shaker Digestive Cordial, a pure, vegetable, digestive tonic, made by the Shakers of Mount Lebanon, will cure all disorders caused by the poisons of undigested food when nothing else will give any relief.

Sold by druggists. Ten cents for a trial bottle.

Write for a book on food. Address The Shakers, 30 Reade Street, New York.

and costs twice as much. At the same time the Welsbach Light is easy to the eye, neither flickers nor flutters, is at all times uniform and absolutely safe. Whether you are going to light the largest building, or a cosy little room—whether you want a light for the most particular purpose, or just for the sake of effect, the Welsbach Light will serve you satisfactorily.

FREE TO EVERY MAN

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

WHICH CURED HIM AFTER EVERYTHING ELSE FAILED.

Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible and under such a strain men are scarcely responsible for what they do. For years the writer rolled and tossed on the troubled sea of sexual weakness until it was a question whether he had not better take a dose of poison and thus end all his troubles. But providential inspiration came to his aid in the shape of a combination of medicines that not only completely restored the general health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that any man who will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I can afford to pay the few postage stamps necessary to mail the information, but send for it, and learn that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. Write to Thomas Slater, Box 494, Kalamazoo, Mich., and the information will be mailed in a plain sealed envelope.
